### What is PlaqClnz?

PlaqClnz is Zinc-based, easy-to-use pet oral health care that treats and helps prevent bad breath, plaque, tartar and gingivitis. Used regularly, it helps keep pets' breath fresh and protects against the early stages of periodontal disease. Simply apply a few drops onto each side of your pet's mouth.

### The all-natural PlaqClnz formula:

- Includes Zinc and Taurine (an amino acid)
- Is taste-free and alcohol free, for easy pet acceptance
- A non-anesthesia alternative to more invasive dental cleanings

### Easy on the Pet Parent and Pet

PlaqClnz is an anesthesia-free alternative to more invasive, painful, and sometimes risky pet dental cleaning. And, unlike messy tooth brushing, the easy-to-use PlaqClnz dispenser bottle encourages regular use to improve and maintain your pet's oral health.

- All natural ingredients including Zinc complex
- Taste-free formula - pets accept it easily
- Ease of use encourages regular preventive care, reducing the risk of more serious pet oral and health problems

### What makes PlaqClnz different?

Unlike other pet oral health formulas, only PlaqClnz products contain Zinc and an amino acid complex. PlaqClnz is alcohol free and will not further irritate the pets mouth.
